Maxwall

HPL / SGL

Practical and pleasing to the eye, Maxwall gives the finishing touch to any washroom, neatly concealing pipework and cisterns whilst uniting all the design elements. It has a well deserved reputation for simplicity, flexibility and exceptional ease of installation. A reliable and straightforward ducting system which also benefits from an outstanding range of premium finishes.

Wide range of colours available - highly bespoke finishes available on request.

Easy to maintain and sanitise

All panels supplied pre-hung on frame

Pre-assembled plywood frame construction

Pre-finished shadows - no on-site laminating

Precision - made to measure and your design

Exceptional ease of installation

Sanitaryware support rails factory-fitted

Specification

MAXWALL HPL

Reference: Maxwood MAXWALL HPL

FRAME ASSEMBLY

Core Material: 25mm exterior-grade structural plywood modular subframe, with single piece plinth anchored to floor by galvanised mild steel brackets. Support rails for wash-hand basins, urinals and panel mounted WC's are manufactured from 25mm plywood and factory fitted. All facing panels are pre-hung for quick site installation.

Shadows: Centre, end and top shadows manufactured from 18mm medium density fibreboard faced in High pressure laminate and balanced, eliminating on site laminating.

Shadow Colours: As per client choice.

Fixing: All softwood fixing grounds and plywood returns are supplied as an entire ducting package.

PANEL

Core Material: 18mm moisture resistant particle board 650kg/m³.

Colour/Finish: High pressure laminate as per client choice, giving 20mm overall panel thickness. Balanced on reverse.

Edge Treatment: All edges lipped in impact-resistant ABS with polyurethane adhesive (see below)

Adhesive Type: All components are bonded with specialist polyurethane washroom adhesive, for ultimate water-resistance and strength of bonding. This adhesive is environmentally friendly with its zero rating on formaldehyde emissions.

Fixings: Heavy duty nylon lift-off or push-fit concealed clips.

PANEL OPTIONS

Side-hinged upper panels.

Lockable panels with chrome escutcheon.

Security fixings to removable panels.

FRAME ASSEMBLY

Core Material: 25mm exterior-grade structural plywood modular subframe, with single piece plinth anchored to floor by galvanised mild steel brackets. Support rails for wash-hand basins, urinals and panel mounted WC's are manufactured from 25mm plywood and factory fitted. All facing panels are pre-hung for quick site installation.

Shadows: Vertical, ceiling and plinth shadows manufactured from 18mm moisture resistant medium density fibreboard faced in high pressure laminate and balanced, effectively eliminating all on-site laminating.

Shadow Colours: As per client choice.

Fixing: All softwood fixing grounds and plywood returns are supplied as an entire ducting package.

PANEL

Core Material: 6mm toughened back-painted glass bonded onto MFMDf substrate.

Colour/Finish: Back painted in colour of client choice.

Edge Treatment: All glass edges bevelled and polished and edges of substrate panel lipped in impact-resistant ABS with polyurethane adhesive (see below).

Adhesive Type: All components are bonded with specialist polyurethane washroom adhesive, for ultimate water-resistance and strength of bonding. This adhesive is environmentally friendly with its zero rating on formaldehyde emissions.

Fixings: Heavy duty nylon lift-off or push-fit concealed clips; middle or upper panel side hinged with friction-stay hinges.

Sanitaryware Apertures: All necessary cut-outs will be machined via templates supplied by contractor.

PANEL OPTIONS

Choice of alternative glass finishes including satin, reeded and interlayered glass (more available on request).

Lockable panels with chrome escutcheon.

Security fixings to removable panels

Glass panel trims.

Maxwall

Tile Backer Board

The latest addition to the Maxwall family, this version allows the premium aesthetic of tiling to be combined with the practicality of a traditional duct panel system. It has a well deserved reputation for simplicity, flexibility and exceptional ease of installation whilst also being compatible with any range of wall tiles.

Hinged panel option allows service access without unsightly inset access panels

Supplied with pre-hung tile-backer-board panels, ready for tiling by others, which allows tiling contractor to maintain a consistent finish across the whole tiling package

Pre-assembled plywood frame construction

Pre-finished shadows - no on-site laminating

Precision - made to measure and your design

Sanitaryware support rails factory-fitted

Compatible with any range of wall tiles
